

League of Women Voters of Anchorage

*Position:* METHOD OF ELECTING SCHOOL BOARD MEMBERS

Statement of Position

The League of Women Voters of Anchorage supports a seven member school board whose members are elected at large to serve in designated seats.

Amplification

In 1993, League members studied various methods of electing school board members and reached consensus that the most desirable method for the Municipality Anchorage School District is one in which the school board members are elected at large to serve in designated seats. League believes this method will best serve all of the students throughout the entire school system, since it is they to whom the school board members owe their primary responsibility.

League supports a seven member school board as being the most workable for the Anchorage School District.

~~~~~  
Position established 1994. Reaffirmed each year since at Annual Meeting.
